Sol KEYBOARD

SECTION V

(Step 15 continued.)

- (✓) Strike SHIFT LOCK key. Indicator light should come on.
- (✓) Strike either SHIFT key. Indicator light should go off.
- (✓) Verify operation of all alphanumeric keys. (As you strike each key you should observe the corresponding character on the monitor.)
- (✓) Should the keyboard fail any of the preceding checks, locate and correct the problem before proceeding.
- (✓) If the keyboard passes all of the preceding tests, congratulations on a job well done.

At this point you have successfully assembled the Sol keyboard and tested it for proper operation. It is now ready for use with the Sol-PC Single Board Terminal ComputerTM.

Having completed the Sol keyboard, power supply, Sol-PC and personality module, you are now ready to assemble the Sol cabinet-chassis. Cabinet-chassis assembly instructions are provided in Section VI.
