Figure 6-3.   Sol-20 with covers removed. Front (or keyboard) is in
               foreground, power supply is in right rear corner, ex-
               pansion chassis (with 8KRA Memory installed) is to left
               of power supply. The vertical board just behind white
               connector on left is the backplane board.

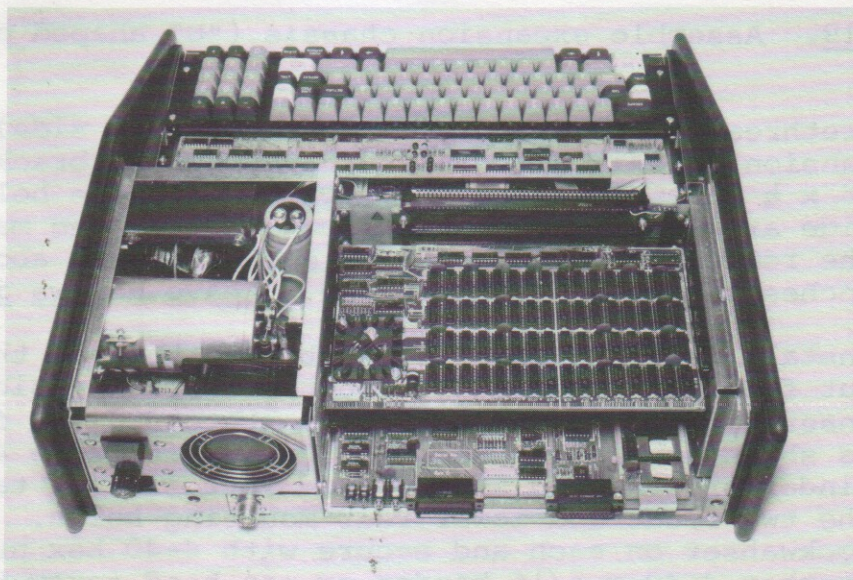

Figure 6-4.   Sol-20 with covers removed.   Rear side of assembly is
               in foreground and Sol-PC is just visible at lower right
               rear of assembly. 8KRA Memory is installed in expansion
               chassis above Sol-PC.
