Statement of Conditions

In the interest of improving internal design, operational function, and/or reliability, Bay Networks, Inc. reserves the right to make changes to the products described in this document without notice.

Bay Networks, Inc. does not assume any liability that may occur due to the use or application of the product(s) or circuit layout(s) described herein.

Bay Networks, Inc. Software License Agreement

NOTICE: Please carefully read this license agreement before copying or using the accompanying software or installing the hardware unit with pre-enabled software (each of which is referred to as “Software” in this Agreement). BY COPYING OR USING THE SOFTWARE, YOU ACCEPT ALL OF THE TERMS AND CONDITIONS OF THIS LICENSE AGREEMENT. THE TERMS EXPRESSED IN THIS AGREEMENT ARE THE ONLY TERMS UNDER WHICH BAY NETWORKS WILL PERMIT YOU TO USE THE SOFTWARE. If you do not accept these terms and conditions, return the product, unused and in the original shipping container, within 30 days of purchase to obtain a credit for the full purchase price

1. License Grant. Bay Networks, Inc. (“Bay Networks”) grants the end user of the Software (“Licensee”) a personal, nonexclusive, nontransferable license: a) to use the Software either on a single computer or, if applicable, on a single authorized device identified by host ID, for which it was originally acquired; b) to copy the Software solely for backup purposes in support of authorized use of the Software; and c) to use and copy the associated user manual solely in support of authorized use of the Software by Licensee. This license applies to the Software only and does not extend to Bay Networks Agent software or other Bay Networks software products. Bay Networks Agent software or other Bay Networks software products are licensed for use under the terms of the applicable Bay Networks, Inc. Software License Agreement that accompanies such software and upon payment by the end user of the applicable license fees for such software.

2. Restrictions on use; reservation of rights. The Software and user manuals are protected under copyright laws. Bay Networks and/or its licensors retain all title and ownership in both the Software and user manuals, including any revisions made by Bay Networks or its licensors. The copyright notice must be reproduced and included with any copy of any portion of the Software or user manuals. Licensee may not modify, translate, decompile, disassemble, use for any competitive analysis, reverse engineer, distribute, or create derivative works from the Software or user manuals or any copy, in whole or in part. Except as expressly provided in this Agreement, Licensee may not copy or transfer the Software or user manuals, in whole or in part. The Software and user manuals embody Bay Networks’ and its licensors’ confidential and proprietary intellectual property. Licensee shall not sublicense, assign, or otherwise disclose to any third party the Software, or any information about the operation, design, performance, or implementation of the Software and user manuals that is confidential to Bay Networks and its licensors; however, Licensee may grant permission to its consultants, subcontractors, and agents to use the Software at Licensee’s facility, provided they have agreed to use the Software only in accordance with the terms of this license.

3. Limited warranty. Bay Networks warrants each item of Software, as delivered by Bay Networks and properly installed and operated on Bay Networks hardware or other equipment it is originally licensed for, to function

substantially as described in its accompanying user manual during its warranty period, which begins on the date Software is first shipped to Licensee. If any item of Software fails to so function during its warranty period, as the sole remedy Bay Networks will at its discretion provide a suitable fix, patch, or workaround for the problem that may be included in a future Software release. Bay Networks further warrants to Licensee that the media on which the Software is provided will be free from defects in materials and workmanship under normal use for a period of 90 days from the date Software is first shipped to Licensee. Bay Networks will replace defective media at no charge if it is returned to Bay Networks during the warranty period along with proof of the date of shipment. This warranty does not apply if the media has been damaged as a result of accident, misuse, or abuse. The Licensee assumes all responsibility for selection of the Software to achieve Licensee's intended results and for the installation, use, and results obtained from the Software. Bay Networks does not warrant a) that the functions contained in the software will meet the Licensee's requirements, b) that the Software will operate in the hardware or software combinations that the Licensee may select, c) that the operation of the Software will be uninterrupted or error free, or d) that all defects in the operation of the Software will be corrected. Bay Networks is not obligated to remedy any Software defect that cannot be reproduced with the latest Software release. These warranties do not apply to the Software if it has been (i) altered, except by Bay Networks or in accordance with its instructions; (ii) used in conjunction with another vendor's product, resulting in the defect; or (iii) damaged by improper environment, abuse, misuse, accident, or negligence. THE FOREGOING WARRANTIES AND LIMITATIONS ARE EXCLUSIVE REMEDIES AND ARE IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Licensee is responsible for the security of its own data and information and for maintaining adequate procedures apart from the Software to reconstruct lost or altered files, data, or programs.

4. Limitation of liability. IN NO EVENT WILL BAY NETWORKS OR ITS LICENSORS BE LIABLE FOR ANY COST OF SUBSTITUTE PROCUREMENT; SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES; OR ANY DAMAGES RESULTING FROM INACCURATE OR LOST DATA OR LOSS OF USE OR PROFITS ARISING OUT OF OR IN CONNECTION WITH THE PERFORMANCE OF THE SOFTWARE, EVEN IF BAY NETWORKS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL THE LIABILITY OF BAY NETWORKS RELATING TO THE SOFTWARE OR THIS AGREEMENT EXCEED THE PRICE PAID TO BAY NETWORKS FOR THE SOFTWARE LICENSE.

5. Government Licensees. This provision applies to all Software and documentation acquired directly or indirectly by or on behalf of the United States Government. The Software and documentation are commercial products, licensed on the open market at market prices, and were developed entirely at private expense and without the use of any U.S. Government funds. The license to the U.S. Government is granted only with restricted rights, and use, duplication, or disclosure by the U.S. Government is subject to the restrictions set forth in subparagraph (c)(1) of the Commercial Computer Software—Restricted Rights clause of FAR 52.227-19 and the limitations set out in this license for civilian agencies, and subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause of DFARS 252.227-7013, for agencies of the Department of Defense or their successors, whichever is applicable.

6. Use of Software in the European Community. This provision applies to all Software acquired for use within the European Community. If Licensee uses the Software within a country in the European Community, the Software Directive enacted by the Council of European Communities Directive dated 14 May, 1991, will apply to the examination of the Software to facilitate interoperability. Licensee agrees to notify Bay Networks of any such intended examination of the Software and may procure support and assistance from Bay Networks.

7. Term and termination. This license is effective until terminated; however, all of the restrictions with respect to Bay Networks' copyright in the Software and user manuals will cease being effective at the date of expiration of the Bay Networks copyright; those restrictions relating to use and disclosure of Bay Networks' confidential information shall continue in effect. Licensee may terminate this license at any time. The license will automatically terminate if Licensee fails to comply with any of the terms and conditions of the license. Upon termination for any reason, Licensee will immediately destroy or return to Bay Networks the Software, user manuals, and all copies. Bay Networks is not liable to Licensee for damages in any form solely by reason of the termination of this license.

8. Export and Re-export. Licensee agrees not to export, directly or indirectly, the Software or related technical data or information without first obtaining any required export licenses or other governmental approvals. Without limiting the foregoing, Licensee, on behalf of itself and its subsidiaries and affiliates, agrees that it will not, without first

obtaining all export licenses and approvals required by the U.S. Government: (i) export, re-export, transfer, or divert any such Software or technical data, or any direct product thereof, to any country to which such exports or re-exports are restricted or embargoed under United States export control laws and regulations, or to any national or resident of such restricted or embargoed countries; or (ii) provide the Software or related technical data or information to any military end user or for any military end use, including the design, development, or production of any chemical, nuclear, or biological weapons.

9. General. If any provision of this Agreement is held to be invalid or unenforceable by a court of competent jurisdiction, the remainder of the provisions of this Agreement shall remain in full force and effect. This Agreement will be governed by the laws of the state of California.

Should you have any questions concerning this Agreement, contact Bay Networks, Inc., 4401 Great America Parkway, P.O. Box 58185, Santa Clara, California 95052-8185.

LICENSEE ACKNOWLEDGES THAT LICENSEE HAS READ THIS AGREEMENT, UNDERSTANDS IT, AND AGREES TO BE BOUND BY ITS TERMS AND CONDITIONS. LICENSEE FURTHER AGREES THAT THIS AGREEMENT IS THE ENTIRE AND EXCLUSIVE AGREEMENT BETWEEN BAY NETWORKS AND LICENSEE, WHICH SUPERSEDES ALL PRIOR ORAL AND WRITTEN AGREEMENTS AND COMMUNICATIONS BETWEEN THE PARTIES PERTAINING TO THE SUBJECT MATTER OF THIS AGREEMENT. NO DIFFERENT OR ADDITIONAL TERMS WILL BE ENFORCEABLE AGAINST BAY NETWORKS UNLESS BAY NETWORKS GIVES ITS EXPRESS WRITTEN CONSENT, INCLUDING AN EXPRESS WAIVER OF THE TERMS OF THIS AGREEMENT.

Introduction

This guide provides instructions for installing boot firmware on a Bay Networks® Model 281xSA Ethernet Hub.

Installing the Model 281xSA firmware involves the following major steps:

- Removing the cover of the Model 281xSA Ethernet Hub
- Replacing the firmware
- Reinstalling the cover

This document describes each of these major steps in detail. For additional information about the Model 281xSA Ethernet Hub, refer to [“Related Publications”](#) later in this document.

Package Contents

In addition to this upgrade instruction guide, your upgrade kit should contain the following items:

- One PROM with the following part number: 119-216-x, where x represents the current revision of the PROM.
- A set of release notes for the current revision of the PROM to be installed. These release notes identify the revision letter of the current PROM.

Caution: Be sure to discharge any accumulated static or wear a wrist strap when handling boards and PROMs. Failure to do so can damage the components.

Required Tools

You need the following tools to install the PROM contained in this upgrade kit:

- A #1 Phillips screwdriver
- A 3/16-inch hex nut driver
- An antistatic mat
- An industry-standard IC extraction tool or equivalent
- An industry-standard grounding wrist strap

Preparation

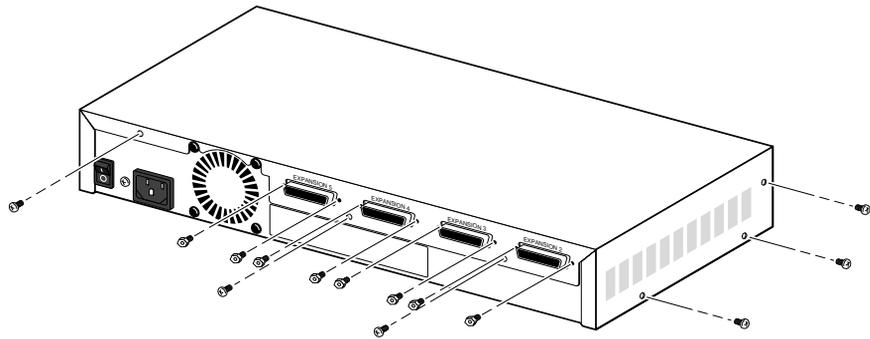

Note: Only qualified technicians should install and service this equipment.

Before installing the PROM, take the necessary precautions to ensure that user sessions are not disrupted and that appropriate safety measures have been followed. Before beginning this upgrade, instruct network users to save their work and log out of active sessions. Bay Networks recommends that you perform this upgrade during a scheduled network maintenance period to reduce the impact on users. For ease of installation, you should plan to upgrade stacks of chassis during one upgrade session, installing one PROM into each chassis in the stack one unit at a time.

Removing the Cover

To gain access to the PROM, you must remove the cover from the Model 281xSA hub. To remove the cover, follow these steps:

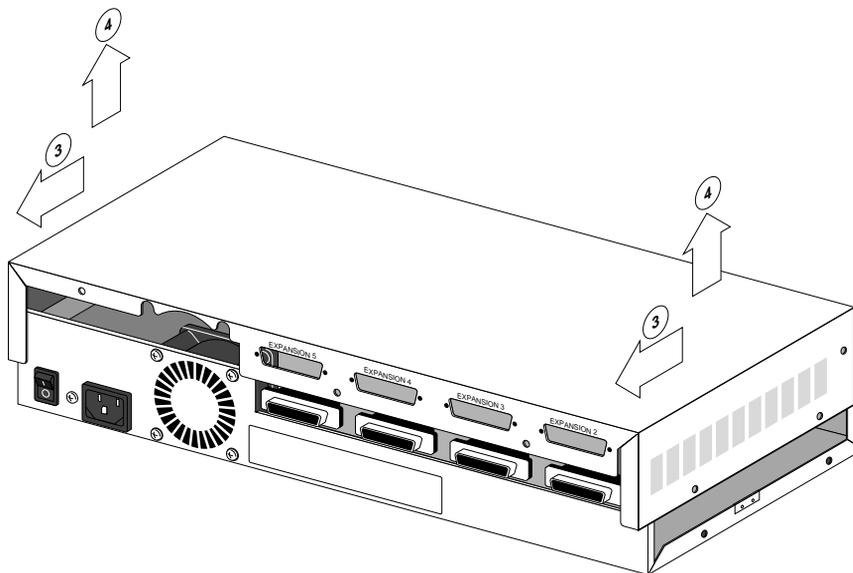

1. Using the #1 Phillips screwdriver, remove three screws from each side and three screws from the rear of the hub (see [Figure 1](#)).
2. Using the 3/16-inch hex nut driver, remove all eight hex nuts from the four DB-25 connectors at the rear of the hub (see [Figure 1](#)).

3052

Figure 1. Cover retaining screws and nuts

3. **Holding the sides of the cover, slide the cover toward the rear of the hub approximately 1/2 inch (see [Figure 2](#)).**

3053.2

Figure 2. Removing the hub cover

4. **Lift the cover straight up (see [Figure 2](#)) and remove it from the hub. Set the cover aside.**

Replacing the Firmware

After you have removed the hub cover, you are ready to install the PROM on the Model 281xSA printed circuit board (PCB). The PROM socket is found slightly left of the center of the PCB as you face the unit. The silkscreen art identifies the PROM location as U28 (see [Figure 3](#)).

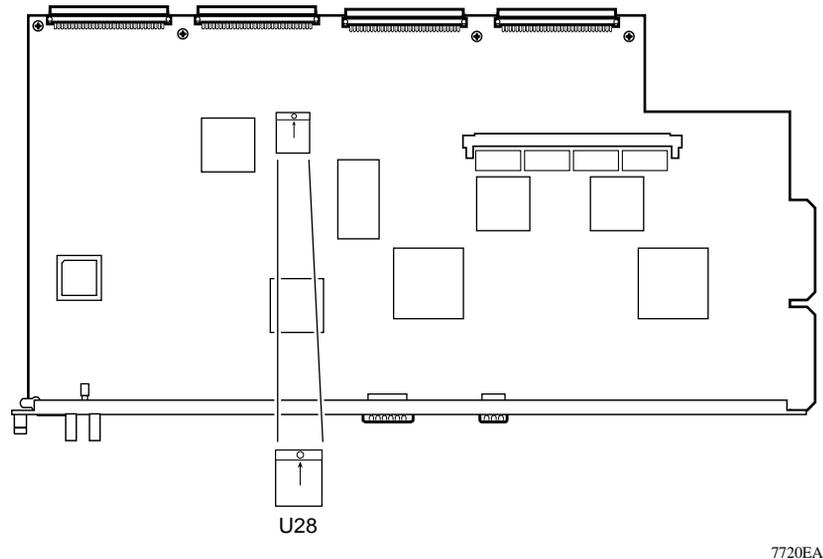

Figure 3. PROM location on the Model 281xSA Ethernet Hub PCB

To replace the firmware in a Model 281xSA hub, follow these steps:

1. **Locate the PROM to be replaced at location U28 (see [Figure 3](#)).**
2. **Remove the existing PROM using the IC extraction tool.**
3. **Install the new PROM (part number 119-216) in location U28; see the release notes that were shipped with the PROM for the current firmware revision level.**

4. Install the PROM correctly with the dot on the PROM toward the rear of the module (see [Figure 3](#)). Make sure the new PROM is installed correctly before reinstalling the cover on the hub.
5. Reinstall the cover on the hub as described in [“Reinstalling the Cover.”](#)

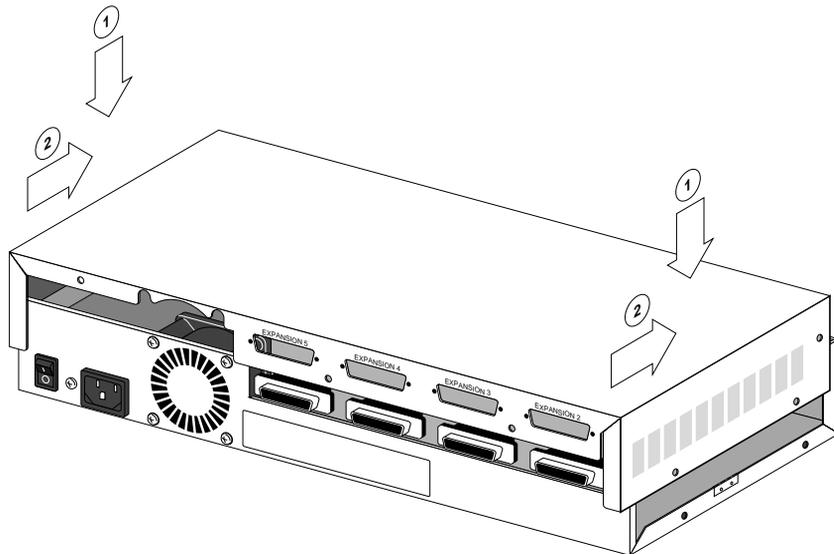

Caution: Applying power to an incorrectly installed PROM can cause damage to the electronic equipment.

Reinstalling the Cover

When you have installed the PROM, you must reinstall the cover on the Model 281xSA hub. To reinstall the cover, follow these steps:

1. Set the cover over the top of the hub, making sure the back edge of the cover clears the expansion ports on the rear panel of the hub (see [Figure 4](#)).

3053.1

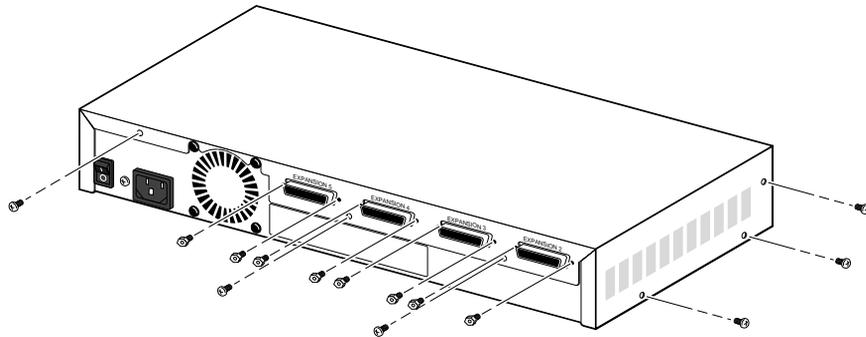

Figure 4. Reinstalling the cover

2. **Holding the sides of the cover, slide the cover toward the front of the hub until the cover engages with the chassis edges.**

Note: Be careful of the ribbon cables that run between boards at the side of the hub. If the ribbon cables interfere with the installation of the cover, gently push them to the inside of the hub as you lower the cover onto the hub.

3. **Using the #1 Phillips screwdriver, insert and tighten three screws on each side of the hub and three screws across the back (see [Figure 5](#)).**
4. **Using the 3/16-inch hex nut driver, insert and tighten eight hex nuts across the back (see [Figure 5](#)).**
